## WORK EXPERIENCE

### Jr. Software Developer Kuchnaya Technolabs Pvt. Ltd.

05/2021 - Present

Thane, India

#### Achievements/Tasks

- Worked on a hunt booking web app. Primarily focused on creating reusable react components, multi-device responsiveness, partial payment feature, business level form validation, and SEO using GraphQL, React, and Chakra UI.
- Created reusable components and integrated stripe payment gateway for vidyback.com using React, Chakra UI, NodeJS and Express.
- Designed and developed an embed-able checkout widget with multiple client-side customizations end-to-end encryption, and validation in Vanilla JS, similar to Stripe elements.
- Developed embed-able checkout widget configuration dashboard (can configure the form, pay button, header, footer, payment options, and theme) in the Angular web app.
- Developed an embed-able invoice pay widget with end-to-end encryption, multiple client-side customizations, and validation using Solid JS from POC to Production.
- Developed an embed-able invoice pay widget configuration dashboard (can configure the searchable fields, pay button, header, footer, payment options, and color scheme) in the Angular web app.
- Developed an Invoice Pay using Solid JS from Scratch.
- Worked on several other features in payments domain.
